One of my favorite study techniques is to create a study guide. It helps me revise the content of the class while also making me study! Sometimes, your professor will be nice enough to create one for you (or at least guide you a little bit by creating a fill-out version), but that will not always be the case.

session. Instead, this training manual will be used as a self-study tool. While most of the guidelines also hold true for a training manual that compliments a stand-up or Internet delivered training, the focus of these guidelines is on a self-study manual. For more information about an instructor-led manual, see the Appendix. Pre-requisite Skills

### How to Create Effective Training Manuals

Record a video of yourself to perform a more accurate study. If you're doing the study on yourself, this approach will be much easier than the other 2. Set up a camera on a tripod in a place that can capture what you're doing. Let it record while you go through a set task, such as writing a report.

Test the task over a given period.

Software studies is an emerging interdisciplinary research field, which studies software systems and their social and cultural effects. The implementation and use of software has been studied in recent fields such as cyberculture, Internet studies, new media studies, and digital culture, yet prior to software studies, software was rarely ever addressed as a distinct object of study.
