By Sue Jenkins. As soon as a new website is 100 percent complete and published on its domain, the URL can be submitted to search engines for indexing and listing. You do this by submitting the site's URL to the search tools that the target audience is likely to use. These tools include search engines, which use robots and spiders to crawl the web in search of new listings, and search directories, which are essentially categorized lists of sites that are sometimes compiled or edited by ...
