### Einstein's Refrigerator : And Other Stories from the Flip ...

The Einstein-Szilard or Einstein refrigerator is an absorption refrigerator which has no moving parts, operates at constant pressure, and requires only a heat source to operate. It was jointly invented in 1926 by Albert Einstein and his former student Leó Szilárd, who patented it in the U.S. on November 11, 1930. The three working fluids in this design are water, ammonia and butane. The Einstein refrigerator is a development of the original three-fluid patent by the Swedish inventors ...

### Amazon.com: einstein refrigerator

"Einstein's Refrigerator" manages to be both. As a teacher I appreciate the time and effort Steve Silverman has put into verifying the authenticity of each of his bizarre tales, something missing from other books in this genre. His wry tone and informal style will attract the interest of even the most reluctant readers.
