### Opportunity Cost Problems And Solutions

If you ask Adam to make posters, the opportunity cost of each poster is 400 entries. In the case of Becci, each poster costs  $1200:2 = 600$  entries. If Cliff switches to making posters, then each poster costs your team  $900:3 = 300$  entries. The last option is the most attractive, so Cliff should be the first who is assigned to do the posters. c.
