North American Vendor Transportation Manual

Specifying what carriers should be used in what lanes and for what types of shipments is the "meat and potatoes" of any routing guide. Routing matrices may vary in detail—state-to-state, ZIP code to ZIP code—but they typically follow a similar paradigm. A transportation routing matrix is broken down by weight restrictions and type of ...

Routing Guides: Inside the Matrix - Inbound Logistics

A routing guide is the foundation of transportation management. The purpose of a routing guide is to create a streamlined process for inbound shipment delivery - specific packaging, labeling and transporting - regardless of the vendor. The routing guide includes modes and carriers to use in specific lanes, it can contain rates and service ...
