

### Trigonometric Graphs Past Paper Questions

If you ally infatuation such a referred **trigonometric graphs past paper questions** books that will provide you worth, get the extremely best seller from us currently from several preferred authors. If you want to comical books, lots of novels, tale, jokes, and more fictions collections are as a consequence launched, from best seller to one of the most current released.

You may not be perplexed to enjoy all books collections trigonometric graphs past paper questions that we will agreed offer. It is not going on for the costs. It's just about what you infatuation currently. This trigonometric graphs past paper questions, as one of the most full of zip sellers here will no question be along with the best options to review.

You can search for a specific title or browse by genre (books in the same genre are gathered together in bookshelves). It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles.

**Trigonometric Graphs Practice Questions - Corbettmaths**  
Cosine Graphs. The graph,  $y = \cos x$  between  $0^\circ$  and  $360^\circ$ , is shown below. The key features of this graph you need to remember: . The peak is  $\sin^{-1}(1)$  and occurs at  $\sin^{-1}(0)^\circ$  and  $\sin^{-1}(360)^\circ$ .; The minimum is  $\sin^{-1}(-1)$  and occurs at  $\sin^{-1}(180)^\circ$ . ; The graph crosses the axis at  $\sin^{-1}(90)^\circ$  and  $\sin^{-1}(270)^\circ$ .; As with the sine graph, this portion ...

Multiple choice questions on the properties of the graphs of trigonometric functions with answers at the bottom of the page. Questions and their Answers Question 1 What is the period of the graph shown below? a)  $\pi/3$  b)  $5\pi/3$  c)  $2\pi/3$  d)  $2\pi$  Question 2 Which of the functions below represents the graph below? a)  $y = -\cos(2x)$  b)  $y = \cos(2x)$

**Questions on Graphs of Trigonometric Functions**  
An SQA N5 Maths exam question on Trig Graphs is shown below: Part of the graph of  $y = a \sin bx^\circ$  is shown in the diagram. State the values of a and b. Source: N5 Maths, 2015, P1, Q6. Trig graphs are graphs of trigonometrical functions such as  $y = \sin x^\circ$ ,  $y = \cos x^\circ$  or  $y = \tan x^\circ$ . You need to know how trig graphs change for functions such as:

Graph Transformations. A transformation is something that is done to a graph/function that causes it to change in some way. This topic is about the effects that changing a function has on its graph. There are two types of transformation: translations and reflections, giving 4 key skills you must be familiar with. Throughout this topic, we will use the notation f(x) to refer to a function and ...
